Title: Graphing Lines...again!

Objective: To write the equation of a line given a graph.

IN:

Given the graph to the right,
what is the equation of the line?

Summary: Now that we have graphed lines a bunch describe EVERYTHING that you remember that will help you graph a line or write an equation of a line, given a graph.

Out:

Draw a line on a coordinate plane. Then, find the equation of the line you drew.
